# TATA MOJICA DOUGLAS

## About Tata

- Her two kids, Freddy and Andrea, grew up in the Y youth programs.
- She likes to run on the track.
- Her is from Puerto Rico and has ben in the United States for 14 years.

## Why She Loves the Y

Tata ran her first mile on the Y track last month! She has been a member for about 8 years and her children participate in the after school programs. Tata fought cervical cancer in 2001 and breast cancer in 2002. She is now cancer free! In 2010 she was diagnosed with chronic Lyme Disease and that is now in control. She says, "I have been always with a positive attitude and the Y have giving me the opportunity to exercise and keeping my mind busy." What a fighter!
