

Sunscreen at Camp Kelley – Let's Stay Sun Safe!

All Campers Must Arrive with Sunscreen Already On

- We kick off our outdoor activities early, so please apply sunscreen **before your camper arrives at camp** each day.

Reapplication Starts After 10:30 AM

- To keep things consistent, sunscreen will **not** be reapplied until after **10:30 AM**, so that first layer in the morning is important!

Sunscreen Donation

- Please send **one bottle of spray sunscreen** labeled **SPF 30 or higher** every Monday your child(ren) attends camp.
- This goes into your camper's group bucket and is used throughout the week by coaches and campers as needed.
- Make sure it's **spray** — it's faster and easier for our staff to apply during the day!

Special Sunscreen Needs?

If your child has skin sensitivities or allergies and requires a **specific sunscreen**, no problem!

- Please fill out a [**Medical Release Form**](#) so we can keep their skin protected with the right product.
